

Ockwells FleeceShield Breathable

Product type

FleeceShield Breathable Multifunctional, vapour-transmitting protective nonwoven with adhesive coating with OPTICOAT™

Characteristic Properties

Material Nonwoven of synthetic fibres
Face with vapour-transmitting PE sheet impermeable to liquids
Rear side with slip resistant coating OPTICOAT™

Colour White

Technical Properties

Thickness 1.8mm

Water vapour permeability approx. 15 g/m²/d

Water in permeability approx. 7 m / water column

Water absorption ability

Advantages

Protects floors, carpets, stairs, tiles, etc. (E.g. from mechanical damage or stains from spilled liquids).
Helps to prevent accidents (Rear side with active protection against slipping).
Can be used several times, quickly laid out (Cost saving).
Environment-friendly (Free of harmful substances, thermally disposable).
Vapour-transmitting.

Important

Switch off floor heating prior to laying. Excess humidity must be extracted beforehand by means of a suitable appliance. New surfaces may be covered after 72h at the earliest. Ideal room temperature + 10 / 25° C, admissible room humidity 50 – 60%. As a matter of principle please observe the regulations & waiting times of the manufacturer and/or supplier concerning the substrate drying times. On laying, the prevailing conditions in the application area must be taken into account.

Laying

With overlap of 10 cm

Function / Application

Safe and highly effective protection for floors and surfaces of all kinds, including; carpets, tiles, furniture, etc.

These properties are the Manufacturers' typical values based on the average of several tests. As the installation and handling of this product is beyond our control the user must ensure that the product is suitable for the application. Ockwells cannot accept responsibility for any loss or damage that may occur either directly or indirectly using this product. Ockwells also holds the right to change specification data without prior notice
